3. Update on Inspections

Feedback from the recent inspections will be given. Generally the plots are in very good shape.

4. Disabled Persons Plots

A number of people were now interested in taking over the vacant disabled plot. However, the wooden raised beds may need to be renewed and maintained for ease of access

5. Badgers

A number of tenants have reported that badgers have again accessed plots and caused severe damage to crops and fences.

6. Wildlife

There have been a number of incidents of wildlife getting trapped under plastic/nylon netting used to cover plots. Please be mindful when using these covers.

7. Any items tenants may wish to raise
