

WELLINGTON TOWN COUNCIL

Presentation of Quotes to Council

This form is to be used to present quotations for works that do not necessarily require full background papers.

| General Information | | |
|------------------------------------|--|---------|
| Completed By | Darren Hill | |
| Presented To | Environment Committee | |
| Brief Introduction and Description | <p>This is to improve the entrance to Wellington by re-homing the Wellington Monument Planter and some area of landscaping. There will need to be a concrete pad installed able to take the planter and then covered in gravel. With the planter bolted down. Street-works is required to undertake this work. I have sent plans to Somerset Council, and they are happy for RW Gale to undertake this work under licence. Somerset Council are not charging us for this.</p> <p>This will greatly improve the approach to Wellington and make a wonderful impact to residents and visitors to Wellington. This also put the planter made for the town to good use in a new location where everyone will see it.</p> | |
| Implications (eg. H&S) | This work must be undertaken by a licenced contractor approved by SC. | |
| Financial | | |
| Specification | <p>To clear all scrub and vegetation from the roundabout Excavate a slab to mount the Monument planter 2.0x2.0x0.50 Fix in suitable subbase and shuttering Pour concrete Excavate area around the Monument leaving the grass edge Fix in geotextile membrane and provide 100mm subbase Supply and spread 20mm Cotswold chippings 75m2 Collect the Monument Planter and fix to concrete base.</p> | |

Bus stop to entrance. Photo from point A looking towards the bus stop.

They have to plant hedging and trees between the bus stop and the entrance half way down the fence. This planting needs to be between the fence and the public pavement that runs along the road. Curious that they removed a mature hedge in order to replant one.

Entrance along the fence to the roundabout (between the fence and the pavement) Photo from point A looking towards the roundabout.

The existing hedge with trees was removed. This was not in the planning permission. It needs to be replaced.

Entrance along the fence to the roundabout (on the Lidl side of the fence)Photo from point A looking towards the roundabout.

This should have been planted as a hedge with trees according to the landscape plan. This has not been done. It is simply a grassed over two metre strip. This needs to be planted as a hedge.
